Data Visualization Analyst / BI Reporting Developer

Location: Warsaw, Poland

What's waiting for you:

- ◆ We are looking for an exceptional Business Intelligence professional to join a newly formed Analytics COE team and help us discover the information hidden in vast amounts of data, structured and unstructured, to enable smarter decisions and better products to all our consumers and customers worldwide.
 - ◆ You should be passionate about data gathering, research, data analysis and insights visualization for further business users consumption.
 - ◆ Collaborate with cross-functional global business partners in Marketing, Category Development, Sales, Corporate Finance and Supply
 - ◆ Work alongside our business data analysts in markets to identify reporting/dashboarding needs
 - ◆ Work together with data scientists and prepare compelling visualizations to identified business insights
- The ideal candidate should have right mix of technical competencies and business fluency.

Functional and technical competencies:

- ◆ B.A. or M.Sc. in Computer Science, Mathematics or Economics
- ◆ Min. 3 years of industry experience in BI solutions development using MSSQL and/or Azure Data Services
- ◆ Excellent data visualization skills and experience in telling stories based on data
- ◆ Experience working with large datasets using various data wrangling and visualization tools.
- ◆ Firm grasp of Business Intelligence implementation methodologies and in-depth experience with Microsoft BI Stack (SSIS, SSAS and SSRS) and Power BI tools
- ◆ Multidimensional modeling using OLAP cubes
- ◆ Design, build, test and publish Power BI applications to business community
- ◆ Strong Programming skills in the following Languages: SQL, DAX,
- ◆ Nice to have understanding one of the following Languages: Python, R
- ◆ Conduct load and performance testing and troubleshooting
- ◆ Nice to have good understanding of Big Data architectures and knowledge of Hadoop, Spark, Hive etc.

Business experiences:

- ◆ Manage timely flow of business intelligence information to business users, preferably in FMCG or Pharma industry
- ◆ Proven abilities to take initiative and be innovative
- ◆ Strong analytical, conceptual and problem-solving abilities
- ◆ Lead data discovery process with key stakeholders to identify business requirements and expected outcomes
- ◆ Work in an Agile setup

Offer:

- ◆ Challenging and innovative global projects.
- ◆ Fresh fruits every day.
- ◆ Flexible work hours.
- ◆ Competitive salary.
