Azure Cloud Automation Engineer

Location: Warsaw, Poland

Responsibilities / Accountabilities:

- Working in our DevOps team in Poland responsible for the development and operations of the platform hosting the Client Identity Cloud.
- Build and deploy .NET Framework, Microsoft SQL Server and Power BI based production environments
- Building and operating the environments for all platform customers.
- Automating the daily operations tasks, implement preventive maintenance automations as well as monitoring of the environments.
- Engage closely with software architects, software engineers and IT team to deliver highly available and scalable services
- Build automation scripts and frameworks to improve operational processes and procedures
- Learn, deploy and document newer technologies for the potential deployment of services following a development and release lifecycle
- Drive ongoing improvements and efficiencies in operational practices, tools & processes
- Provide a seamless transition of the application from Product Development to Production Support teams
- Support Microsoft Network configurations as relates to server deployments
- Prepare and implement backups and disaster recovery plans
- Support production service and environment escalations as needed

Professional Qualifications/ Experience:

- You probably have a higher IT education such as bachelor or master. You are an experienced Azure Automation Engineer or Cloud Specialist with at least three (3) years' experience.
- You have excellent knowledge of Cloud and DevOps.

You have experience with the following:

- Kubernetes/Docker
- Extremely comfortable working with Windows Servers, Microsoft SQL
- Ability to write scripts without effort
- Azure PowerShell / Azure CLI / Python
- Experience with API Gateways and experience with setting up API's
- Knowledge of at least one CI/CD software like Azure DevOps, Terraform, Jenkins or Puppet
- Sysadmin, DevOps, and network management
- On Call Duties
- 24/7/365 Operations
- Strong English skills, written and verbal

As a person:

- You like to work both as a team member and individually, but you are a team player at heart that is used to work with challenges every day and think out-of-the-box.
- You are an independent, responsible, and flexible person with good interpersonal skills, and you are just like the rest of us ambitious and passionate about technology.

Offer:

- ♥ Challenge, opportunities to exchange skills within multinational Team
- ♥ Casual and very friendly atmosphere
- ♥ Competitive salary aligned with experience
- ♥ Flexi-time and home office
- ♥ 5 additional vacation days
- ♥ Co-financed parking space
- ♥ Training budget
- ♥ Access to e-learning platforms like Pluralsight and LinkedIn Learning
- ♥ Extended health care package
- ♥ Sports Card
- ♥ Bike room with showers
