We offer a rewarding and exciting professional experience and opportunity to develop your career in a highly competitive international environment.

Senior .Net Developer for Platform Team

Location: Warsaw, Poland

Responsibilities / Accountabilities:

- ◆ You will be a part of the Platform Team responsible for delivering and maintaining the software that enables customers' easy and secure creation of application, connectivity, and analytics scenarios.
- ◆ You will be responsible for developing and maintaining core platform components and frameworks that will be used by other scrum teams as well.
- ◆ You will work closely with Product Owner, Scrum Master and other senior developers on further development of the product.
- ◆ From the early stages of the feature life cycle doing initial design and estimates, designing new features for product components and present them for architects and the scrum team.
- ◆ You will perform peer code reviews and do peer programming sessions.
- ◆ You will actively participate in all SCRUM ceremonies, e.g., the sprint planning session where plans are made with the entire team and the PO, and the end of sprint demonstrations, where the latest innovations are shared with the larger team.
- ◆ You will be a key player in developing the features, and responsible for the quality, working closely together with QA securing a high quality when we release new features.

Professional Qualifications/ Experience:

- ◆ At least 5 years' experience with C#, .NET development and SQL, and good experience in new feature development and deployments.
- ◆ You are experienced in product development and maintenance as well as the agile development life cycle.
- ◆ Higher IT education such as graduate or master

You have experience with the following:

- ◆ C# and .Net
- ◆ JavaScript and front-end development (REACT is a plus)
- ◆ Microsoft SQL Server
- ◆ Test automation (unit, integration, performance, UI testing)
- ◆ Cloud development (Azure components like Event Hubs and Azure Functions is a plus)
- ◆ Knowledge and experience with setting up and usage of CI/CD is a plus

As a person:

- ◆ You like to work both as a team member and individually, but you are a team player at heart that is used to work with challenges every day and think out-of-the-box.
- ◆ You are an independent, responsible, and flexible person with good interpersonal skills, and you are just like the rest of us ambitious and passionate about technology.

Offer:

- ♥ Challenge, opportunities to exchange skills within multinational Team
- ♥ Casual and very friendly atmosphere
- ♥ Competitive salary aligned with experience
- ♥ Flexi-time and home office
- ♥ 5 additional vacation days
- ♥ Co-financed parking space
- ♥ Training budget
- ♥ Access to e-learning platforms like Pluralsight and LinkedIn Learning
- ♥ Extended health care package
- ♥ Sports Card
- ♥ Bike room with showers
