Currently, we are looking for an accomplished expert for the role of Software Engineering Team Leader. We offer a rewarding and exciting professional experience and opportunity to develop your career in a highly competitive international environment.

Software Engineering Team Leader

Location: Warsaw, Poland

Job Description:

The team leader is responsible for the good functioning and performance of the team, from both an individual and collective views. The role will manage, develop and expand the team to meet challenging business goals and time frames.

He/She is also responsible for the quality of what the team delivers, and must therefore implement the good practices as necessary, for various aspects of the job. You'll collaborate with other team leaders to ensure that development processes are optimal.

Responsibilities / Accountabilities:

- ◆ Build, mentor, and grow a team of 6-8 engineers, support hiring and development of team members
- ◆ Work with Product Owners & Product Managers to understand desired application capabilities
- ◆ Focus the team on shipping the most impactful features while continually raising the bar on operational excellence
- ◆ Coordinate and communicate seamlessly across engineering and product leadership teams
- ◆ Actively participate in the software development process
- ◆ Set clear expectations and create a positive work environment based on accountability, in collaboration with the engineering and management teams.
- ◆ Provide monitoring data (KPI) with respect to the team's assignment.
- ◆ Maintain an on-going overview of resource allocations and technology skill sets, and proactively ensure that the team is prepared with needed competences when requested for.
- ◆ Providing guidance around the craftsmanship, availability and scalability of our software product and helping managing risks throughout the development process

Professional Qualifications/ Experience:

- ◆ 10+ years in software product development.
- ◆ 4+ years as a software engineering leader/manager
- ◆ Experience and passion for hiring, growing, developing and guiding people
- ◆ Shown success previously as a software engineering leader who is able to focus on results using Agile methodologies
- ◆ Excellent knowledge of modern web application development (.Net & React is a plus)
- ◆ Experience working in an Agile/Scrum development process
- ◆ Excellent communication skills (mentoring and coaching skills would be a plus).
- ◆ Self-driven and team player.
- ◆ Ability to work well in an international and multicultural environment in a fast-growing company.
- ◆ Bachelors/Masters in Computer Science, Engineering or a related field.
- ◆ Good verbal and written communication skills in English

Offer:

- ♥ Challenge, opportunities to exchange skills within multinational Team
- ♥ Ability to work in an autonomous way and in an environment where your ideas are valued
- ♥ Casual and very friendly atmosphere
- ♥ Competitive salary aligned with experience
- ♥ Training
- ♥ Flexi-time and home office
- ♥ Benefits (covered or co-financed): Health care, Multisport card, Life insurance,
- ♥ French and Polish classes

Interested candidates should send their resume (CV) to **Magdalena.wielgos@itpuzzle.com.pl** with " **Software Engineering Team Leader**" in the subject line.
