# Test Automation Engineer

Location: Warsaw, Poland - remotely

## Job Description:

As a Test Automation Engineer Specialist, you will be working across the entire Client Platform helping to analyze test results to identify and troubleshoot system functionality. You will work with us to deliver reliable and high-performance solutions to our customers in the cloud. You will help develop innovative test strategies and act on behalf of our wide-ranging customer base with a specific focus on scalability testing and infrastructure.

Your role:

- ◆ Designing and developing automated test frameworks
- ◆ Have a focus on improving the maintainability, increase automated test coverage and decrease test execution times.
- ◆ Estimating, designing, developing and maintaining test scenarios and test data
- ◆ Executing tests, monitoring and reporting tests results
- ◆ Helping in result analysis results to identify and troubleshoot system bottlenecks
- ◆ Designing automated tools to aid Feature Team members

## Professional Qualifications/ Experience:

- ◆ More than 3 years working experience in test automation
- ◆ Experience in C#
- ◆ Experience in Selenium WebDriver
- ◆ Experience working with public cloud infrastructure (Azure DevOps)
- ◆ Experience with GIT and performing code reviews
- ◆ Experience with integrating automation test into CI/CD pipelines
- ◆ Experience in developing and reviewing end-to-end test plans
- ◆ Experience in working effectively across teams, including product development, product management, customer operations, and field teams
- ◆ Solid understanding of basic systems operations (disk, network, operating systems, etc)
- ◆ Autonomous, rigorous, proactive and pragmatic; sense of customer service
- ◆ Excellent communication and presentation skills in an international environment
- ◆ Fluency in English
- ◆ Innovative, highly motivated personality

Nice to have:

- ◆ Experience with test scalability, knowledge of parallel testing
- ◆ Experience with microservice testing
- ◆ Experience with Integrating DevOps with QA
- ◆ Experience with load testing concepts and load test tools
- ◆ Experience in building and analyzing performance and scalability tests
- ◆ Experience with Docker
- ◆ Experience with Kubernetes
- ◆ Experience with SQL

## Offer:

- ♥ Challenge, opportunities to exchange skills within multinational Team
- ♥ Ability to work in an autonomous way and in an environment where your ideas are valued
- ♥ Casual and very friendly atmosphere
- ♥ Competitive salary aligned with experience
- ♥ Training
- ♥ Flexi-time and home office
- ♥ Benefits (covered or co-financed): Health care, Multisport card, Life insurance,
- ♥ French and Polish classes

Interested candidates should send their resume (CV) to **[Agnieszka.guzik@itpuzzle.com.pl](mailto:Agnieszka.guzik@itpuzzle.com.pl)** with " Test Automation Engineer" in the subject line.
